

Refer to the CAO Handbook PAGES 49-54

- The university is presented as a single entity with programme location clearly presented eg Aungier Street, Blanchardstown, Bolton Street, Grangegorman, Tallaght, etc.
- The 2021 CAO Handbook forms the basis of identifying the staged transition to a One TU Dublin programme provision and this is the 1st phase
- The number of separate codes has dropped from 197 to about 166.
- The layout offers opportunity for further change over time without fundamentally altering this essential style.
- The different wording has been streamlined eg Common entry / General entry is now General
