### **The following programmes have been added for 2025:**

- DB535 Bachelor of Arts (Honours) Sustainability Management

The BA (Hons) in Sustainability Management programme aims to provide learners with the knowledge, skills, and mindset necessary to address global sustainability challenges, as well as creating and maintaining sustainable operations in the public, commercial and not-for-profit sectors. Moreover, the decision to align the curriculum of this proposed BA (Hons) in Sustainability Management programme with the 17 United Nations Sustainable Development Goals (SDGs) is rooted in the recognition of the urgent need to address global sustainability challenges. By integrating the SDGs into our curriculum, we aim to provide students with a comprehensive understanding of the interconnected nature of sustainability issues and empower them to contribute meaningfully to achieving the SDGs.

The fees for a Full-time BA (Hons) in Sustainability Management are €5,995 per annum for EU students.
