Section 1: Your address

HEAR uses your address to find out whether you live in an area of urban or rural disadvantage. Please fill in your address carefully using the format you see on your online form. This will make sure HEAR has the best picture of where you live. Please note, HEAR may contact you and ask you to provide evidence of this address.

Some addresses don't have house names or numbers. If your address doesn't have a name or number, leave this bit blank. Please try and fill in your Eircode. If you don't know your Eircode, you can search for it on www.eircode.ie
